Securidor® PAS24: Panic Exit

Double and single leaf PAS 24 emergency exit steel door sets

Leaf

44mm door leaf thickness, fitted with an integrated astragal for added security. Comprising of 2 x 1.2mm steel sheets, the leaf skins are mechanically interlocked and internally bonded providing greater stability and protection against de-lamination.

Available with either:

42mm thick 'Hexatex' core

Or upgrade to Rockwool insulated core for up to 1.9 U value

Frame

Typical door configuration consists of a standard rebate frame assembly, for either single or double door-sets. Made from lightweight, high tensile steel and powder coat finish, it also has an "Adjust-2-Fit" side expander system that offers adjustable fixing points.

Various frame depths and styles available - including double rebate frames

Manufactured from 1.5 mm thick steel

Options

Automatic and manual deadlocking

Single and multi-point locking on inactive and active leaf

Push pad and push bar options available

Standards

Certified to: PAS 24:2016 Enhanced security performance requirement for door-sets and windows in the UK. Door-sets and windows intended to offer a level of security suitable for dwellings and other buildings exposed to comparable risk.
