Atakdor[®]

STRONGDOR
SECURED BY *steel*

Atakdor - developed in partnership with a leading national retailer, Atakdor uses a combination of door security technologies, such as Atakcore and Leafshield, to frustrate serious, sustained attacks from heavy duty and abrasive wheel power-tools and cutting equipment. These tough single and double door-sets are fitted with high security hardware as standard with optional drop bars to present a formidable barrier to would be intruders.

Atakdor[®] Specially designed to protect against serious, sustained attack from heavy duty and abrasive wheel power tools.

Developed in partnership with a leading national retailer, Atakdor was born out of the necessity to thwart determined, planned attacks on premises that had been targeted by criminals gangs. They knew that the sites contained small, expensive merchandise that could be easily removed and was simple to sell on.
