Strongdor Secured by Design door-sets are certified to comply with the standards set by the national Police initiative to improve the security of buildings and their immediate surroundings, to provide safe places to live, work, shop and visit.

These door-sets offer greater protection to bin stores, plant rooms and access to communal areas and can be used on both residential and commercial developments that require the peace of mind that comes with Secured by Design compliance.

Secured by Design

Official Police Security Initiative

Secured by Design typical door configurations

Inward and outward opening door-sets with louvre and vision panel options for both double and single leaf door-sets
