

Ardmore Distillery.

Nestled in the charming landscapes of Aberdeenshire, there lies a prominent distillery celebrated for crafting world-famous Scotch whisky.

Established in 1898, this enduring establishment continues to thrive, dedicated to the production of the finest Ardmore Whisky.

In a quest for durability that parallels the longevity of their historic building, the distillery turned to Strongdor for exceptional quality and visually striking doors.

The choice was Firedor internal and external doors, selected for their certification and impressive 2-hour fire rating and were installed by our long standing customer C & E Moir & Son Ltd. Adorned in a sleek Pure Red finish, these door-sets seamlessly complement the distillery's aesthetic, combining functionality with timeless elegance.
