FIREBOR PUBLIC SECTOR APPLICATION

# THORNLEIGH

FOUR HOUR FIRE-RATED STEEL DOORS

At Thornleigh College, as with all public sector projects, reliability and resilience were key considerations in the specification and selection of replacement doors.

In order to minimise disruption, all work had to be completed within a tight deadline. Functioning in an environment where there was an expectation of high traffic, with sustained and prolonged use from students and teachers moving between lessons and breaks, suggested a type of door that would perform perfectly, time and time again. Also, as you would expect, for safety sake the doors had to meet all accreditation for build quality and fire rating.

The Firedor Series met all these requirements and Strongdor ensured that the project was delivered on time and in budget for the start of the new term.
